

Weather Master®

Enclosure System

Enjoy the Great Outdoors right from your own Porch!

The WeatherMaster® Enclosure System combines the open feeling of a screen room and the comfort and convenience of a three season sunroom. It does this by utilizing the unique design of the WeatherMaster vertical window system. This window

system features durable weather-resistant View Flex, extruded aluminum frames and sashes, stainless steel hardware and fibre mesh screens. Our unique design makes ventilation up to 75% possible.

WEATHERMASTER® WALLS

If you have ever considered adding to an existing deck or screening in a patio, Sunspace WeatherMaster® has the system for you. WeatherMaster® Walls – 2" foam panels lets you enjoy your favourite seasons that much longer. The walls incorporate the versatile WeatherMaster 4-Track vinyl window and screen system. Built to exceed local building codes, our wall system will give you worry-free enjoyment all year long and each sunroom has a lifetime warrantee.

WEATHERMASTER® VERTICAL WINDOW SYSTEM

The Vertical 4-Track Window System has been engineered to offer the most flexibility to the customer. If you have an existing deck or patio, the WeatherMaster® enclosure system has been designed to be easily installed without expensive remodelling costs.

These vinyl pane windows offer the perfect solution for homeowners seeking style and safety. Select either white, driftwood or bronze frames with clear, smoke grey, dark grey and bronze vinyl.

INTER-LOCK®

The patented Inter-Lock® Roof System is available in 3", 4" and 6" thick panels and has been designed to withstand the most severe climate conditions. Inter-Lock® roof panels have high density foam core with aluminum skins laminated on both sides or have an OSB exterior to accommodate standard shingles. Every roof system has an internal water troughing system to channel away moisture and comes standard with heavy duty extruded aluminum gutters and fascia.

THERMA-DECK

Our Therma-Deck consists of panels with 3.5", 5.5" and 7.25" core of insulation sandwiched between two ½" Oriented Strand Boards giving our Therma-Deck a 25% better insulated rating than conventional flooring construction. Therma-Decks eliminate costly foundation work and finished surface can receive carpet, tile or almost any type of flooring.

ENDLESS POSSIBILITIES

Sunspace enclosures have the design flexibility that few systems can offer. All of our sunrooms are custom-designed and engineered to fit exact specifications of your home's architecture and local building codes. Sunspace sunrooms are available in a variety of colours to allow you to design a sunroom that best suits your needs. Convert an empty yard, deck or porch into a new room for the family, a children's play room, an exercise room, a spa room, an eating area or just a quiet place to relax. Ask your authorized dealer for details and their design services.
