SUNSPACE
Let the Sun Shine

THERMAL ROOM WALLS

Building on the three-season sunroom the Thermal sunroom takes you to a new level in comfort. By offering three inch extruded insulated aluminum pillars and double-glazed windows, the thermal sunroom allows you to extend your seasons enjoyment. Whether it is a three-season or thermal sunroom you will enjoy a new, high quality, customized comfortable sunroom.

THREE-SEASON WALLS

A three-season sunroom is a bright addition to any RV. Whether it's a park model or travel trailer, to be used as a living area, dining room or bedroom, the possibilities are endless. Sunspace two-inch extruded, insulated, aluminum pillars with single-glazed glass or vinyl-glazed windows give the three-season sunroom strength, stability and a virtually maintenance-free exterior. Not only are you adding living space to your RV but you're also adding value to your RV with a three-season sunroom from Sunspace.

WEATHERMASTER® WALLS

If you enjoy the open airy feeling of your existing deck but want protection from bugs, the elements and harmful UV rays, the Sunspace WeatherMaster® system is what you're looking for. Made with 2" foam panels and extrusions, the walls incorporate the versatile 4-track vinyl window and screen system. Vents are glazed with ViewFlex, a tough, resilient vinyl, available in clear, smoke grey, dark grey and bronze. The window units effortlessly slide up or down allowing a generous 75% ventilation opening.

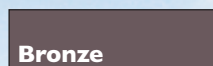

PATIO ROOF / HARD AWNING

The patented Sunspace roof system is available in 3", 4" and 6" thick panels and have been designed to withstand heavy loads and the most severe climates. Sunspace roof panels have a high density foam core with aluminum skins laminated on both sides. every roof system has an internal water troughing system to channel away moisture and comes standard with heavy duty extruded aluminum gutter and fascia.
